

**Classes Scheduled in Fall/Winter 2007/08 for the
Responsible Personnel Certification Program
for Erosion and Sediment Control**

Seven upcoming Green Card Certification Seminars

**September 20, October 18, November 15, December 13, 2007
January 17, February 21, and March 20, 2008.**

Presented by the Department of Permitting Services
Division of Land Development

The Responsible Personnel training provides participants with valuable information regarding proper construction management and the proper implementation and maintenance of sediment control measures. The program primarily caters to land development and engineering firms, and earth-moving contractors.

Responsible personnel training includes:

- Attending the 4 hour course
- Taking an examination following the course
- Receiving a certification card within 2 weeks of course completion

The class is held in the Department of Permitting Services HHS Conference room. It begins promptly at 8:00 A.M. and ends at approximately 12:30 P.M. The cost of the class is \$40.00 and includes a copy of the "Sediment Control Handbook."

To register for one of the classes, call 240-777-6281. Payment for the class must be received two weeks prior to the class date.

The MD Department of the Environment coordinates the training program Statewide and can be contacted at: 410-537-3543 for other classes held throughout the State.
